

OPERATORS' PRECISION CHALLENGE

Compete with America's Top Construction Operators

Contestants will test drive one of Liebherr's most versatile excavators. In this event, Liebherr-qualified participants will show their skill by demonstrating how an excavator can be used to expertly work in a tight area and switch attachments from the comfort of your seat.

Get ready to prove your skills in an exciting competition where precision is the key.

Visit worldofconcrete.com or likufix-us.com for more information and to register.
